TIPS TO FLY ABROAD!!!

SECURITY AND HEALTH

1. Check-in with your doctor and insurance carrier.

Double check and make sure that you have all of the proper vaccinations and that you have renewed all essential prescriptions. Also, ask your medical insurance provider if your policy applies overseas for emergencies. If it doesn't, and you want to add extra coverage, consider supplemental insurance.

2. Bring copies of your passport.

If your passport gets stolen or lost you want to be sure that you can still get back into the country, or be able to prove your citizenship.

3. Leave a copy of your passport.

For extra backup, leave a copy of your passport at home or with someone you trust. Consider making an electronic copy you can store in your email account as well.

4. Register with your embassy.

If there's a problem in the country, this will make it easier for your government to contact you and get you to safety.
